

ABDULLAH IJAZ

Rochester, NY | Abdullahijaz92@gmail.com | LinkedIn.com/in/abdullahijaz

SUMMARY

Analytical cybersecurity professional with hands-on penetration testing and risk-assessment experience gained at Hamrah Security, including leading a CIS Controls Self-Assessment (CIS CSAT) review of the firm's security posture. Skilled in network and vulnerability triage, SIEM-based threat detection, incident investigation and documentation, and risk/compliance frameworks (NIST CSF, MITRE ATT&CK, CIS Controls), complemented by a background in high-stakes finance and EMS environments that built strong client-facing communication, confidentiality, and professional-services experience. Expert in Windows administration and Identity & Access Management (IAM), with growing offensive security skills across red-team tooling and methodology (OSCP in progress).

CERTIFICATIONS

- **Offensive Security Certified Professional (OSCP)** — In Progress
- **CompTIA Security+** — In Progress
- **Security Analyst Level 1 (SAL1)** | TryHackMe | Apr 2026 — SIEM log analysis, traffic analysis (Wireshark), Snort/Sysmon, vulnerability triage
- **Cyber Security 101 (SEC1)** | TryHackMe | Jan 2026 — foundational security, MITRE ATT&CK, NIST CSF • **Google IT Support Professional Certificate** | Coursera | Jan 2026

TECHNICAL SKILLS

Offensive Security / Red Teaming: Penetration Testing, Nmap, Metasploit, Burp Suite, BloodHound, NetExec/CrackMapExec, Impacket, Responder, Mimikatz, Cobalt Strike; Rules of Engagement & Scope Definition.

Security Operations: SIEM Log Analysis, Traffic Analysis (Wireshark), Nessus, Vulnerability Triage, EDR/XDR, Phishing & Malware Analysis (sandbox detonation).

Compliance & Risk: NIST CSF, MITRE ATT&CK, CIS Critical Security Controls (CIS CSAT), HIPAA, AML/KYC, CFAA, Vendor / Third-Party Risk Assessment.

Core IT, Virtualization & IAM: Windows 7–11, Active Directory, Entra ID, TCP/IP, DNS/DHCP, VPN, VMware/VDI administration.

RELEVANT EXPERIENCE

Cybersecurity Consultant – Penetration Tester | Hamrah Security LLC

Apr 2026 – Present

- Conduct penetration testing engagements for clients using a full suite of red-team tools and methodologies to identify, exploit, and document security vulnerabilities.
- Operate within defined rules of engagement and written authorization, applying frameworks such as MITRE ATT&CK to structure testing and reporting.
- Perform malware detonation, behavioral analysis, and sandbox-based threat validation to assess endpoint detection, containment, and incident-response readiness.
- Assessed the firm's posture with the CIS Controls Self-Assessment Tool (CIS CSAT), performing control mapping, gap analysis, and cybersecurity-maturity assessment.
- Promoted to full consultant after completing internship; currently pursuing OSCP certification.

Cybersecurity Intern – Penetration Testing | Hamrah Security LLC

Nov 2025 – Apr 2026

- Supported penetration testing engagements, gaining hands-on experience with red-team tools and techniques under senior-consultant guidance.
- Learned and applied legal and contractual frameworks governing engagements, including scope definition and authorization requirements.

Private Client Banker / Small Business Specialist | JPMorgan Chase & Co.

Jun 2020 – Sep 2023

- Troubleshoot complex user authentication (MFA/SSO) issues and digital banking platform failures for high-net-worth clients.

- Executed daily AML/KYC audits and system-integrity checks, identifying and escalating technical anomalies and potential fraud to SOC teams.
- Managed secure access to sensitive financial databases, ensuring strict adherence to internal security protocols and data-privacy laws.

Financial Representative | Vision Financial Group – MassMutual

May 2024 – Jan 2026

- Performed comprehensive risk assessments to identify workflow vulnerabilities; collaborated with IT and compliance for remediation.
- Maintained internal dashboards and systems, ensuring data integrity through encryption standards and secure user-access controls.

Advanced EMT | American Medical Response

2013 – 2018; 2023 – 2024

- Managed secure incident reporting via Mobile Data Terminals (MDTs) under high-pressure, time-sensitive conditions.
- Maintained 100% HIPAA compliance while troubleshooting field-device connectivity and encrypted data transmission.

Student Technical Support Specialist | Monroe Community College

Aug 2011 – Mar 2013

- Tier-1 Help Desk: hardware/software support for campus-wide Windows systems and network connectivity.
- IAM: managed secure password resets and MFA troubleshooting for 500+ daily student/faculty users.

EDUCATION

- **MBA (In Progress)** | Southern New Hampshire University
- **B.S. Exercise Science** | University at Buffalo
